

ASCE Region 2 Assembly

Saturday November 16th, 2013

All Sections, Branches, Younger Member Forums, Student Chapters, Faculty Advisors and Practitioner Advisors are strongly encouraged to attend the 2013 Region 2 Assembly which is scheduled for Saturday November 16, 2013 in Williamsport, Pennsylvania at the Pennsylvania College of Technology.

There will be professional developments through presentations on current engineering design practices, a chance for interaction between students, professors and practitioners and the opportunity to learn more about what ASCE can do for you.

Please plan on sending a representative or delegation from your Section to the Assembly. We encourage the Sections to mentor Younger Member Groups and Student Chapters by facilitating car-pooling if possible.
