

**The American Society of Civil Engineers – Younger Members Forum and the**  
**Keystone – Mountain - Lakes Carpenters will be entering the 2014 design competition.**

*CANstruction entry 2013: "Bridging the Hunger Gap"*

#### **What is CANstruction?**

*CANstruction is a design/build competition to build structures entirely of canned food – all of which is donated to local food banks after the competition. Teams are given only one day (12 hours) to build their structures and awards are given for: Best Meal, Best Use of Labels, Structural Ingenuity, Juror's Favorite, Honorable Mention, and People's Choice.*

So how can you help?

**DONATE!**

This year's design will require over 2000 cans! With most cans costing about \$1, every donation, even as small as \$5 or \$10 will help us to reach our goal! Please consider donating to this unique charity event!

All sponsors will be acknowledged on event signage. Corporate sponsorships of \$50-\$99 will also have a small logo included on signage. Donations of \$100 and up will have a large logo on event signage and acknowledgment on some event announcements.

Monetary donations are preferred as we need a specific set of cans for our structure, however if you would prefer to donate cans please contact Linda Kaplan at [lkaplan@gfnet.com](mailto:lkaplan@gfnet.com) to find out what's needed.

To make a personal donation through the ASCE Pittsburgh Section website please "register" for this event at your preferred sponsor ship level. This does not mean you have to attend. To become a corporate sponsor, please contact Linda directly.

*To feed and inspire the world – one can at a time. ®*
