

YOUNG CIVIL ENGINEER OF THE YEAR AWARD

One per year

This award is given to a young licensed professional in recognition of continual excellent work with highlights during the award year and demonstrated commitment to the field. The following criteria will be considered:

- Limited to those not over 40 years of age in the year of award;
- Evidence of technical competence;
- Indications of pursuing a fruitful career;
- Notable performance, meritorious achievement including papers or presentations;
- Service to advancement of profession;
- ASCE activity – local or national;
- Community service outside of profession;
- Character and integrity;
- Must possess professional engineering license or engineer-in-training certification or equivalent.
